## **DETAILED ACTION**

### ***Allowable Subject Matter***

The application has been amended as follows:

The following is an examiner's statement of reasons for allowance:

Independent claim #1 and #15 are allowed over the prior art as previously indicated in office action 03/16/2004.

In regards to claim 1, prior art discloses an armature assembly of a motor, having a core with a plurality of spaced apart teeth that define slots between adjacent teeth. In which windings are disposed in associated slots around at least some of the teeth, and a retaining system that is operatively associated with distal ends of the teeth to retain the windings within the associated slots. However, prior art does not disclose a retaining system having a non-planar surface that interfaces with the windings to define at least one void that permits flow of an encapsulation material into the void so as to facilitate attachment of the encapsulation material with the assembly.

In regards to claim 15, the prior art discloses an armature assembly for a linear motor having a core with a rectangular base, teeth that extend from the base and terminate in a distal end. The teeth are spaced apart from each other and extend longitudinally between opposed sides of the base to define an elongated slot between adjacent teeth. At least one set of windings surrounds at least one of the teeth. However, prior art does not disclose an outer covering of an injection molded material encapsulating at least a substantial part of the core and windings to help maintain the windings within the slots, in combination with a layer of varnish material applied to the

core and the windings. The outer covering is applied over the varnish that encapsulates at least a substantial part of the core and windings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
